igdd GLASS SPLASHBACKS ...

By investing in the latest technology, In Glass Design are able to bring you the next generation in glass with an almost unlimited choice of finishes.

We can print any hi-resolution digital image, pattern or texture directly onto glass creating an amazing variety of stunning effects.

Can't decide on what you want? That's ok! Use our in-house design consultant who will advise on colour and design choice, or pick from our extensive range of colours and printed samples in our state of the art showroom.

**“At last ... Get the finish you deserve!
Add beauty and individuality to your
space with an almost unlimited choice
of colour, design and effects.”**

Lgd SLIDING GLASS DOORS ...

In Glass Design are proud to introduce our new Spaceplus series of sliding doors and room dividers.

Expand the flexibility of any room by installing custom-made silent sliding doors which can be retrofitted to any space or wall without the need for costly alterations to support a top hung system.

The design of each door can be customised with a variety of inserts, including translucent and coloured glass, and even digital art! The creative applications for kitchens, dining rooms, bathrooms, offices and hallways are endless, providing a flexible connection between rooms.

Call us on 07 5502 0744 now, for a free, no obligation quotation.

IGD FRAMELESS GLASS ...

Whether it's a bathroom screen, frameless glass doors or a feature glass wall, create a feeling of style, depth and space to your home with our custom-made frameless glass installations. They provide a contemporary, functional and sophisticated look that will maximise the value of your home without costing you the earth.

Our experts can help you design your frameless glass for your project.
